Re: Project & achievement discs and plaques

Project discs and plaques have been phased out for the Stearns 4-H Program, but we have heard that some clubs would still prefer to continue the tradition.

Therefore, our vendor has indicated that they are willing to take orders directly from individual clubs. While these items are not listed on their website, they do have the disc designs on file and if they do not have a project disc you are looking for, they can create a design for you. Price will vary depending on the quantity you order. Please contact Brian directly for quotes and ordering.
