IT'S ALL JUST VINE AND DANDY:  
ORNAMENTAL VINES FOR HOME  
2014

Annual Vines

Snapdragon Vine  
(*Maurandella antirrhiniflora*)
- **Light:** Sun-Part Sun  
- **Plant Height:** Climbs to 6 feet tall  
- **Plant Width:** Climbs to 6 feet wide.  
- **Uses:** Landscape, containers, beds & borders  
- **Special Features:** Attracts hummingbirds, attracts butterflies, easy to grow

Dutchman’s Pipe Vine  
(*Aristolochia tomentosa*)
- **Height:** 8-10 ft.  
- **Spacing:** 6-8 ft.  
- **Sun Exposure:** Morning sun with afternoon shade produces best bloom and growth.  
- **Bloom time:** May/June  
- **Virtues:** Large, dense foliage, quick growth and vining habit make it useful as a summer screen. Can be trained up a trellis, porch railings, arbor, fence, etc. Attracts swallowtail butterfly.

Morning Glory  
(*Ipomoea tricolor*)
- **GERMINATION:** 5-14 days at 65-75°F. To aid germination, nick seed with a file and/or soak 24 hours in water overnight.  
- **CULTURE:** Indoors - 3-4 weeks before last frost, 2-4 seeds/pot. Thin. Transplant out 3-4 weeks after danger of frost is past. Outdoors - 1-2 weeks after last frost, 8 seeds/foot, 6” away from wall or trellis. Thin.  
- **LIGHT/SOIL:** Full sun to partial shade; well-drained soil of low to average fertility. High nitrogen reduces flower production.  
- **SPACING:** 12". Stake or trellis.  
- **USE:** Arbors, walls, fences.

Moonflower  
(*Ipomoea alba*)
- **Light:** Sun  
- **Plant Type:** Annual Plant  
- **Height:** 1-5 feet tall Plant  
- **Width:** 1-4 feet wide  
- **Landscape Uses:** Containers, Beds & Borders  
- **Special Features:** Flowers, Fragrant, Drought Tolerant, Deer Resistant, Easy to Grow

Spanish Flag  
(*Ipomoea lobata*)
- **Height:** 8-10 ft.  
- **Spacing:** 9-12 in.  
- **Sun Exposure:** Sun to Partial Shade  
- **Bloom Color:** Red, Orange, Bright Yellow  
- **Bloom Time:** Late Summer/Early Fall  
- **Other details:** This plant is attractive to bees, butterflies and/or birds.  
- **Propagation Methods:** From seed; sow indoors before last frost. Scarify seed before sowing

Hyacinth Bean  
(*Dolichos lablab*)
- **Spacing:** 9-12 in.  
- **Sun Exposure:** Full Sun  
- **Danger:** Seed is poisonous if ingested  
- **Bloom Color:** Purple  
- **Bloom Time:** Mid Summer- Mid Fall  
- **Foliage:** Grown for foliage, Blue-Green, Aromatic, Smooth-Textured  
- **Other details:** This plant is attractive to bees, butterflies and/or birds. Flowers are fragrant. Self-sows freely; deadhead if you do not want volunteer seedlings next season.

Sweet Pea  
(*Lathyrus odoratus*)
- **Height:** 4-6 ft.  
- **Spacing:** 6-9 in.  
- **Sun Exposure:** Full Sun  
- **Bloom Color:** Pink, Rose/Mauve, Red, Medium Blue, White/Near White  
- **Bloom Time:** Late Spring-Mid Summer  
- **Other details:** This plant is attractive to bees, butterflies and/or birds. Flowers are fragrant.
Black-Eyed Susan Vine  
(*Thunbergia alata*)
- **Height:** 6-8 ft.  
- **Spacing:** 24-36 in.  
- **Sun Exposure:** Sun to Partial Shade  
- **Bloom Color:** Red, Orange, Red-Orange, Bright Yellow  
- **Bloom Time:** Late Spring- Early Fall  
- **Foliage:** Evergreen  
- **Other details:** This plant is suitable for growing indoors.

Cup and Saucer Vine  
(*Cobaea scandens*)
- **Height:** 4-6 ft.  
- **Spacing:** 12-15 in.  
- **Sun Exposure:** Full Sun  
- **Bloom Color:** Medium Blue, White/Near White  
- **Bloom Time:** Late Summer- Mid Fall  
- **Foliage:** Herbaceous  

Passion Flower Vine  
(*Passiflora incarnata*)
- **Height:** 20-30 ft.  
- **Spacing:** 6-8 ft.  
- **Sun Exposure:** Sun to Partial Shade  
- **Danger:** Parts of plant are poisonous if ingested  
- **Bloom Color:** Coral/ Apricot, Red-Orange  
- **Bloom Time:** Mid Spring- Late Fall  
- **Bloom Fragrance:** Slight  
- **Foliage:** Evergreen, Blue-Green, Chartreuse/Yellow  
- **Other details:** This plant is attractive to bees, butterflies and/or birds.

Perennial vines

Cardinal Vine  
(*Ipomoea multifida*)
- **Hardiness:** Zones 3-10.  
- **Bloom:** Tubular, red, 2” flower with white or yellow eye; mid summer to frost.  
- **Size:** To 20’.  
- **Light:** Full sun for best potential; afternoon shade OK in South.  
- **Soil:** Average well drained soil.  
- **Propagation:** Easily started from seed, but soak the seeds for 24 hours before planting.  
- **Companion plants:** Cardinal Vine is best appreciated as a specimen vine.

Clematis  
(*Parthenocissus quinquefolia*)
- **Hardiness:** USDA Zone 4a  
- **Height:** 10-12 ft.  
- **Spacing:** 4-6 ft.  
- **Bloom Color:** Purple, Pink, White  
- **Flower Fragrance:** No fragrance- Slightly Fragrant  
- **Bloom Time:** Mid Summer-Early Fall  
- **Sun Exposure:** Full Sun  
- **Danger:** All parts of plant are poisonous if ingested. Handling plant may cause skin irritation or allergic reaction.

Virginia Creeper  
(*Parthenocissus quinquefolia Engelmanni*)  
- **Hardiness:** Zone 3  
- **Height:** 25-30’  
- **Light:** Full Sun-Full Shade  
- **Foliage:** Red in the fall. Leaves are long stemmed and are divided into 3-5 leaflets.  
- **Other Details:** Self-clinging ivy vine, can be used to quickly cover house walls, very steep slopes or large fences. No pruning is required. Tolerant of many soil types.

ENGLEMANN IVY  
(*Parthenocissus quinquefolia*)
- **Hardiness:** USDA Zone 4a  
- **Height:** 10-12 ft.  
- **Spacing:** 4-6 ft.  
- **Bloom Color:** Purple, Pink, White  
- **Flower Fragrance:** No fragrance- Slightly Fragrant  
- **Bloom Time:** Mid Summer-Early Fall  
- **Sun Exposure:** Full Sun  
- **Danger:** All parts of plant are poisonous if ingested. Handling plant may cause skin irritation or allergic reaction.

BOSTON IVY  
(*Parthenocissus tricuspidata*)
- **Hardiness:** USDA Zone 4  
- **Height:** 30-40’  
- **Spacing:** 2-10’  
- **Sun:** Full Sun-Partial Sun  
- **Other Details:** In late fall, leaves turn bright red-orange. Low maintenance, great on privacy walls, gazeboes and shade roofs. You can also grow it as a colorful ground cover.

Hops
(*Humulus lupulus*)
- **Height:** 12-15 ft.
- **Spacing:** 4-6 ft.
- **Hardiness:** USDA Zone 3a
- **Sun Exposure:** Sun to Partial Shade
- **Danger:** Handling plant may cause skin irritation or allergic reaction
  Pollen may cause allergic reaction
- **Bloom Color:** Chartreuse (Yellow-Green), Green, Cream/Tan
- **Bloom Time:** Mid Summer
- **Foliage:** Grown for foliage
  Herbaceous

Scarlet Runner Bean
(*Phaseolus coccineus*)
- **Height:** 6-8 ft.
- **Spacing:** 6-9 in.
- **Growth Habit:** Climbing
- **Sun Exposure:** Full Sun
- **Danger:** Parts of plant are poisonous if ingested
- **Days to Maturity:** 71 to 80 days
- **Bloom Color:** Scarlet (Dark Red)

Chocolate Vine
(*Akebia quinata*)
- **Height:** 4-6’
- **Hardiness:** USDA zone 4
- **Sun Exposure:** Sun to Partial Shade
- **Bloom Color:** Maroon (Purple-Brown)
- **Bloom Time:** Mid Spring
- **Foliage:** Evergreen, Deciduous
